Dale and/or Molly,

Please contact this press person today as their story is apparently running - we would be happy to put together a response. We can certainly cite the outreach that the agency has done to get the message out about the rodenticides listed in the NOIC. OPA has those through the last communication strategy.

Good Afternoon All,  
Just getting used to using the new system. I received the press inquiry below earlier today.  
Rusty

Hi Russell,

I am working on a story about rat poison, it's food chain impacts to wildlife, current work to educate the public about alternatives, and your agency's work to regulate second generation anti-coagulants.

Here's the story I aired last week,

<http://www.kmud.org/news-humboldt-california/water/item/2868-new-lawsUIT-targets-rat-poison->

[regulation](#)

I would love to get your voice into today's story, please give me a ring before 3 pm PST,  
KMUD News 707-923-2605

Or feel free to email me any questions about the interview, or a good time to call you.

Sincerely,  
Terri Klemetson
